

S.E.E.®

Safety Evacuation Lighting System

Emergency Light for Public Spaces

S.E.E.® provides light to prevent slips, trips, falls, and chaos in darkness. More dependable than flashlights, safer than candles or flares, it enables distinct marking of evacuation routes.

Features of S.E.E.® System

- Photoluminescent label is immediately visible
- Includes tamper-evident pin
- Each **CHEMLIGHT**® illuminates for two hours

Product Application

- Install S.E.E.® every 100 feet along a designated evacuation route to provide a safe, clearly-lighted path
- Place in critical areas, i.e. near fire extinguishers, exits, stairwells, alarms, etc.
- Activate by pulling the front cover
- Remove one **CHEMLIGHT**® and evacuate; leave the other in place as a stationary light source for others following
